# We are

**Arcedges Building India LLP**, is a venture of Gujarat-based multidisciplinary Dudani Group. In terms of commercial and social activities, the group has amassed a tremendous reputation and portfolio. The Group began operations in the 1970s with the business of mining explosives & presently has business operations in the areas of Electricals, Marbles, Real estate, Medicare consumables & EOT cranes.

Our plant set up located at Shamlaji-Gujarat & established in year 2017 meets international standards, manufactures high-quality pre-engineered buildings & structural steel components. With the covered area of **5 lakh Sq.ft.** & annual capacity of **50000 MT** we are equipped to deliver any type of pre-engineered building requirement of our valued customers.

Our pre-engineered structures may be used for a variety of commercial and industrial applications, including warehouses, factories, cold storage facilities, workshops, stadiums, supermarkets, and high-rise structures. With the advantages of exceptional quality, efficiency, and longevity, our pre-engineered metal building systems provide contemporary solutions for all building developments.

To reach the highest level of design efficiency, we closely collaborate with our clients. To meet the most stringent criteria, we transform very complicated systems into the safest and most secure apps. Many of our ideas and inventions are the outcome of our collaboration with clients to address their challenging application issues.

We are eager to meet the individual demands of brand-new clients. Give us the chance to demonstrate our dedication to resolving your issues and enhancing the application of your procedure.

## **Our Mission**

To provide Indian industry with next-generation metal buildings and components that are of supreme quality, sustainable, energy-efficient, cost-effective, and time-saving. Utilizing our modern infrastructure, technical expertise, and decades of experience to provide high-quality and cost-effective metal products.

## **Our Vision**

For us, a brand is trust. We want to build a brand that every customer trusts, and for that we are ready to serve you with all possible efforts. We desire to accomplish business excellence through the highest standard of ethics, assuring the best quality products and services, innovation, productivity, and customer satisfaction. We endeavor to have a strong and enduring relationship with our customers based on quality and service.

# Core values:

## **Agility: "Adaptive Excellence"**

We embrace the spirit of adaptive excellence, continuously evolving to meet the ever-changing needs of our clients and the dynamic construction industry. Our agility enables us to swiftly respond to challenges and opportunities, ensuring efficient project execution and innovation in all areas we operate.

## **Righteousness: "Ethical Integrity"**

We uphold righteousness as the foundation of our actions, maintaining the highest ethical standards in everything we do. We are committed to fairness, honesty, and integrity in all our interactions within our organization and with our customers, partners, and stakeholders.

## **Commitment: "Dedicated to Excellence"**

We are driven by an unwavering commitment to excellence. We dedicate ourselves to the success of our clients, partners, and our team. Our commitment is the driving force behind our relentless pursuit of quality and customer satisfaction.

## Why Arcedges PEB?

We have the greatest machinery that meets international requirements, and we produce top-notch PEBs that serve high-quality and economical.

In terms of efficiency and cost, our pre-engineered building method is unrivaled. Buildings that are customized to meet unique demands are planned, developed, produced, and supplied in less than 8 weeks for as little as 30% of the price of traditional steel buildings.

For every project, we also offer shot blasting (always SA2.0) for all steel frames—three years of material guarantee and structural warranty, and also a water leak warranty.

We adhere to the 'Kaizen' principle of continual development, which originates in Japan.

We aim to provide a work atmosphere where highly motivated individuals actively participate in their jobs and are free to share their thoughts.

The company has ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 accreditation.

## We Provide Quality

Arcedges Building (India) LLP is a pioneer and industry leader in the construction of pre-engineered buildings for heavy fabrication work, warehouses, factories, and power plants.

Our areas of expertise in Pre Engineered Metal Building Systems in Design, Heavy Fabrication Work, Steel Structures, and Erection Works.

The application of the Pre-Engineered Building concept to low-rise buildings is very economical and speedy.

We are dedicated to creating and offering steel-based goods and related services to clients around the country. We work hard to attain excellence in both the services we offer to customers and the quality of goods we make. In order to promote innovation and allow for continuous development across the board, we try to foster a work atmosphere where motivated individuals may openly interact. The goal of "Complete Customer Satisfaction through Total Quality Management" is something that all of our staff strive to attain.

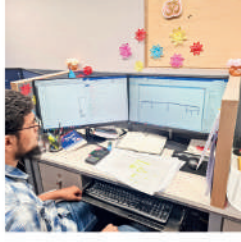

# Design & Detail Engineering:

At **Arcedges Building India LLP**, our Engineering team in **Hyderabad & Ahmedabad** is dedicated to transforming visionary concepts into sustainable, high-quality structures. Using advanced tools like AutoCAD, Tekla Structures, STAAD.Pro, and MBS (Metal Building Software), we ensure precision and efficiency in every phase, from design to execution.

With a focus on innovation, dynamic load analysis, and eco-friendly materials, we create robust, environmentally responsible buildings that meet the highest industry standards. Our team proudly leads Arcedges in shaping the future of construction in India.

## Our Infrastructure

At Arcedges, we design, we manufacture, we install, and we care for your structures. We are your single source for turnkey solutions, providing complete peace of mind for your projects. As a one-stop provider, we deliver a comprehensive range of next-generation metal building products and systems.

Arcedges takes pride in utilizing top-tier manufacturing equipment within a fully integrated, state-of-the-art production facility located in Shamlaji, Gujarat, India, with an impressive capacity of 50,000 MT per annum.

We are a technology-driven, value-added engineering company, equipped with the finest machinery from world-class manufacturers. This allows us to deliver high-quality results with cost efficiency. At Arcedges, every solution is tailor-made to meet the specific needs of our customers, with each structure custom-designed to exact specifications.

Our manufacturing process embraces a variety of architectural styles, accommodates changes, and efficiently reduces design, estimation, and delivery timelines.

# Group Companies:

## **Krano "Cranes"**

Krano is a leading innovator in the crane manufacturing industry, dedicated to designing, engineering, and delivering high-performance lifting solutions. With a legacy of excellence and a commitment to quality, we cater to diverse industries including construction, shipping, manufacturing, and more.

## **Dudani "Renewables"**

Dudani Renewables is a leading provider of renewable energy solutions specializing in solar power systems. With a commitment to sustainability and innovation, we offer comprehensive services to residential, commercial, and industrial clients. Our mission is to empower individuals and businesses to harness the clean and abundant energy of the sun while reducing their carbon footprint and energy costs.

## **Dusons "Medicare"**

A manufacture of high-quality medical equipments having facility of international standards located at Matasuliya - Gujarat. With a relentless commitment to innovation, research, and patient well-being, we have emerged as a trusted partner for healthcare professionals, institutions, and patients alike.

## Beyond Work & CSR

We believe in nurturing a well-rounded and fulfilling work culture.

Our commitment goes Beyond Work through a variety of activities and initiatives that benefit both our employees and the community. From daily Health and Safety Inductions at every site to ensure a safe working environment, to celebrating key festivals and Labour Day, we value every individual's well-being.

We engage our teams with monthly training sessions, and recognize achievements through bi-annual reviews and recognitions.

Our refreshment tours, both international and domestic, boost morale, while sports activities, community donations, and environmental initiatives like tree planting reflect our dedication to Corporate Social Responsibility (CSR).

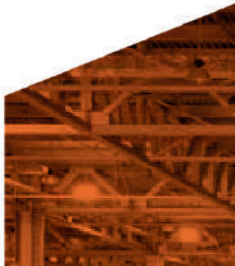

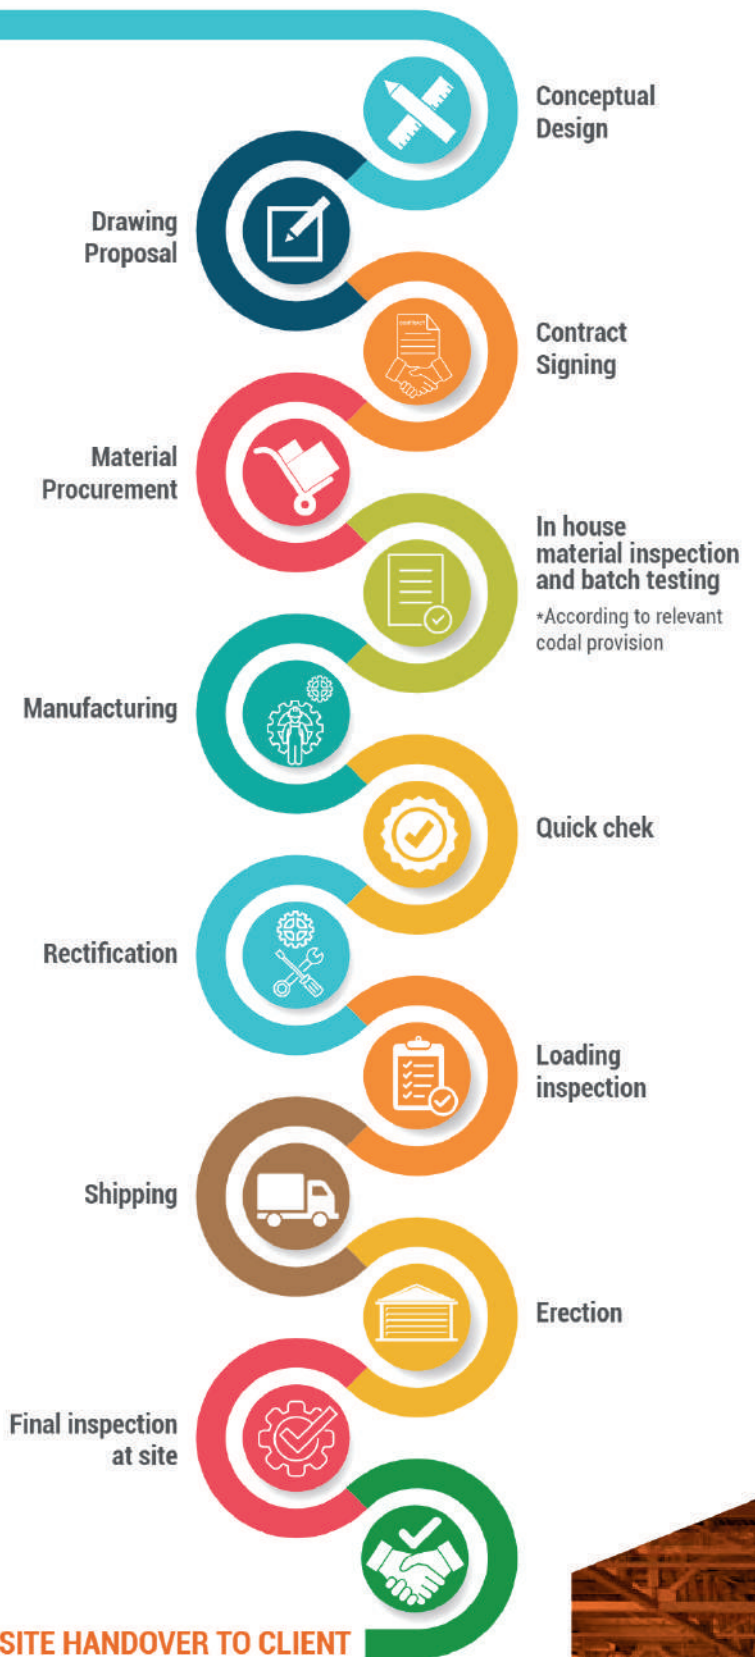

At Arcedges, we strive to create a vibrant and supportive atmosphere that extends beyond the workplace.

# Quality Procedure

- Raw material purchase as per specifications.
- Plate joining as per design & drawings.
- Plate shearing/cutting.
- H-Beam welding.
- Straightening of flanges.
- Base plate, cleats and angles fabrication.
- Hole punching or drilling in flange and cleats.
- Final welding & finishing of the members.
- Inspection & quality check.
- Shot blasting.
- Painting.
- Final inspection & quality check before dispatch.
- Secondary members.
- Coil slitting.
- Roll forming with automatic punching.
- Loading the material.
- Inspection of loaded material and finalizing packing list.
- Dispatched from the plant.

# Our Services

Our areas of experience are PEB Design, Detailed Engineering, Procurement, Manufacturing, Logistics, Transportation, Project Management, and Erection-Commissioning.

## PEB Designing

Crafted with Precision, Engineered for Brilliance.

## Material Supply

Reliability Unleashed, Materials Delivered at Your Doorstep.

## Detailed Engineering

Where Every Detail Matters, Excellence is Engineered.

## Project Management

Guiding Visions to Reality, Every Step of the Way.

## Procurement Mastery

Crafted with Precision, Engineered for Brilliance.

## Installation Wizardry

Bringing Structures to Life, Seamlessly.

## Manufacturing Expertise

From Blueprint to Reality, Where Precision Meets Performance.

# Our Projects

Project Delivered in 20+ Countries and Increasing more.....

**Africa**
